## DETAILED ACTION

### *Allowable Subject Matter*

1. Claim 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of providing web audio content directly from audio source. The closest prior art, Jimenez et al. (WO 01/52503), teaches providing web audio content from audio source to the user. Jimenez, however, does not teach an internal channel between the network interface controller and the audio source through a cell switch internal to the media server. These features are claimed in the independent claims and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clemence Han whose telephone number is
